KAG helps vulnerable people have a say in decisions that affect them and how they live their lives. KAG provides independent advocacy support at no direct cost to these individuals, who have a learning disability or mental health issue.

We listen to our clients, understand their needs, ensure they are aware of their rights and provide relevant information. Then, we support them in speaking up for themselves or, where this is not possible, we speak for them.

Have Your Say

With our quarterly support meeting coming up we would like to give you the opportunity to have your say and ideas for any training we could provide.
